EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY, Scheller College of Business — **Atlanta, GA**
Master of Science in Quantitative and Computational Finance — Aug. 2026 – Dec. 2027
- GRE: 170 Quant

K.J. SOMAIYA COLLEGE OF ENGINEERING — **Mumbai, India**
Bachelor of Technology in Computer Engineering — May 2024
- GPA: 9.08 / 10; Honors in Data Science (GPA: 8.15 / 10)
- Relevant Coursework: Applied Mathematics, Probability & Statistics, Machine Learning, Data Analytics, Python, R, Discrete Mathematics

EXPERIENCE

ANAND RATHI — **Mumbai, India**
Quantitative Developer Intern — Dec. 2025 – Feb. 2026
- Developed Python-based financial analytics and reporting solutions to support quantitative research and investment strategy teams.
- Built data-processing workflows for financial datasets, improving efficiency and accuracy of market analysis and research activities.
- Conducted backtesting and validation of investment hypotheses using historical market data and statistical techniques.
- Assisted in developing analytical models for evaluating portfolio performance, risk metrics, and trading strategies.
- Automated recurring reporting processes, reducing manual effort and enhancing data consistency across research outputs.

PS DESIGN — **Mumbai, India**
Financial & Market Research Analyst Intern — Jun. 2025 – Dec. 2025
- Conducted market, pricing, and competitor analysis to support business and growth strategy.
- Prepared structured reports and forecasts for leadership decision-making.
- Supported strategic planning through data-backed insights.

CORSEARCH (Brand Protection & Compliance) — **Mumbai, India**
Data Analyst — Aug. 2024 – Apr. 2025
- Analyzed large-scale datasets to identify compliance risks, violations, and operational patterns.
- Executed and documented enforcement actions with strong focus on accuracy and audit-readiness.
- Built dashboards and structured reports summarizing trends, risk exposure, and outcomes.
- Worked cross-functionally with legal, operations, and technology teams on documentation and validation.

PROJECTS

Investment Banking Portfolio Management System
- Developed a portfolio analytics system covering asset allocation, performance tracking, risk analysis, and investment dashboards.
- Simulated institutional portfolio management workflows using quantitative finance concepts.

Time Series Stock Forecasting
- Built predictive models using Bloomberg market data to analyze stock price trends and volatility.
- Applied time-series analysis techniques to generate forecasting insights and support investment research.

SKILLS

Tools & Tech: Python, SQL, C++, R, Power BI,
